CISAS is an independent organisation which is approved by Ofcom to provide an alternative dispute resolution (ADR) service. Ofcom approved ADR sort out disputes between communications providers and their consumer and small business customers. Their job is to investigate complaints fairly by listening to both sides of the story. They look at the facts given to them before recommending any action that may be needed to put things right.

Data protection

We comply fully with our obligations under the Data Protection Act 1998.

Purpose of this Code of Practice

This Code informs you about our policies on providing information on Premium Rate Service (PRS) calls and on our charging policy for call to NTS and PRS numbers

Premium rate services

Premium rate services (PRS) are telephone numbers that offer some form of information or entertainment that is charged to your phone bill. UK-based PRS numbers are normally prefixed by "09". Typical services include TV vote lines, mobile ringtone downloads, technical help lines, charity fund-raising and adult entertainment.

Charges for these services are added to your telephone bill. Calling a PRS number generally costs between 10 pence and £1.50 per minute, per call or per text (incl. VAT). Calling these services from, for example, mobile phones, cable networks or public payphones will generally cost more than the advertised rate. Our charges for calling these services are shown in our price list, which is available on request from our Customer Services Team 0333 321 4500.

If you have a problem with PRS, we can help. We can provide advice on checking the number of PRS charges that appear on your bill and will try to help you identify the premium rate service provider. We can use call barring to restrict access to "09" numbers. Please call our Customer Service Team on 0333 321 4500 for advice on this.

You can also ask for help from PhonepayPlus, which is the industry-funded regulatory body for Premium Rate Services. PhonepayPlus operates a code of practice that sets out standards for the operation of PRS. You can use the PhonepayPlus website at www.phonepayplus to check PRS numbers direct or to download a complaint form. PhonepayPlus has legal powers to require a provider of PRS to amend its service or promotional material (or both) and can also impose penalties on content service providers. For other ways to contact PhonepayPlus, see the "Useful addresses" section below

Number translation services

Number translation services (NTS) are based on numbers that are normally pre-fixed "08 and 03". For example, 0800 and 0808 are used to provide free phone services (some free phone services are also provided on 0500 numbers). 0844 and 0845 numbers are used for dial-up pay-as-you-go Internet access and customer service help lines. 0870 and 0871 numbers are used for information services, technical help lines and telephone banking. They are also used by organisations to help them provide call management features such as intelligent call routing and fax-to-email services.

Charges for calling services on NTS numbers are added to your telephone bill and prices range from free up to a maximum of 10p per minute or per call (incl. VAT). Calling these services from, for example, mobile phones, cable networks or public payphones will generally cost more than the advertised rate. Our charges for calling these services are shown in our price list, which is available on request from our Customer Services Team 0333 321 4500.

If you are unhappy with the help you have received from us on a problem with PRS or NTS, you may also complain using the complaints procedure set out in this code including, ultimately, referring your complaint to CISAS.

Internet diallers

If you use the Internet, it is possible for software to be placed on your computer without you knowing – using the same methods as for computer viruses. This type of software (known as Internet or rogue diallers) can then make calls to PRS and NTS numbers without your knowledge. Software is available to detect this activity and we can help you to access this – please contact our Customer Services Team 0333 321 4500 for details. PhonepayPlus has been given responsibility for policing this type of activity and you can contact them via www.phonepayplus.org.uk to ask for help or to report examples of this type of abuse. For other ways to contact PhonepayPlus, see the “Useful addresses” section below. We can also help by barring calls to 09 numbers.

The Telephone Preference Service

If you don't want to get sales and marketing calls you have not requested, you can add your details to a list run by the Telephone Preference Service (TPS). If your name is on the list, it is illegal for a company to call you for marketing purposes. You can contact the Telephone Preference Service via www.tpsonline.org.uk or by telephoning 0845 070 0707.

(* For the avoidance of doubt “Consumers” are domestic and small businesses 10 employees or less)
